

A comfortable heat source for your muscles

InfraRed Healthcare Heat Incandescent

Philips infrared lamps for healthcare and bodycare applications are designed for treating deep-seated muscular ailments and sports injuries. These incandescent reflector lamps are an excellent solution to provide localized heat treatment to relieve muscular pain. They can also be used to treat rheumatic ailments. This form of heat therapy has also been shown to speed the healing of different kinds of injuries such as sports injuries and non-infected wounds, in many cases providing rapid and effective pain relief. The benefits of this form of heat therapy are based on locally enhanced blood circulation in the skin caused by vasodilatory response. This results in an increased transport rate of metabolites and other essential biochemical compounds. Benefits are also gained by deeper penetration of heat, which provides a gentle, pleasant warming effect.

Benefits

- Optimal penetration into skin and muscles for ultimate relief of muscular pain
- Optimal penetration into skin and muscles for ultimate relief of muscular pain
- 90% of energy transmitted as infrared heat
- 90% of energy transmitted as infrared heat
- Instant, accurately controllable source of radiant heat
- Instant, accurately controllable source of radiant heat

InfraRed Healthcare Heat Incandescent

Features

- Reflector shape allows concentrated heat to be applied where it is needed.
- Reflector shape allows concentrated heat to be applied where it is needed.
- PAR38 has a 100% aluminized internal reflector, which means that 100% of the heat leaves via the front.
- PAR38 has a 100% aluminized internal reflector, which means that 100% of the heat leaves via the front.
- PAR38 has a small, round filament, which also contributes to more concentrated heat in the beam.
- PAR38 has a small, round filament, which also contributes to more concentrated heat in the beam.
- Good balance between lifetime and heat output
- Good balance between lifetime and heat output
- Red-colored lamps to reduce visual light emission and glare
- Red-colored lamps to reduce visual light emission and glare

Application

- Providing relief from muscular pain and ailments such as rheumatism, lumbago, neuralgia and colds, etc.
- Providing relief from muscular pain and ailments such as rheumatism, lumbago, neuralgia and colds, etc.
- Promoting recovery from injury
