PHILIPS Lighting

Product Description

Reflector diam 50 mm

Reflector lamps based on advanced spotlighting technology

Benefits

· Centre-beam intensities up to 100% higher than with conventional reflector lamps

Features

- Optic gives double reflection of part of the light emitted by the filament
- Beam spread and luminous intensity make these lamps especially suitable wherever space is limited and in small luminaires
- · Direct replacement for conventional reflector lamps of all kinds
- · Easy fitting and removal thanks to tapered profile

Application

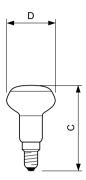

- All the benefits of high-performance, high-efficiency spotlighting, simply by replacing conventional reflector lamps with ring mirror lamps of the same size and wattage
- Display lighting in shops, hotels, restaurants and homes
