M/QCS145

MCS/QCS145 C

Professional surface mounted downlights complimenting the family of the 145 range. Complete with a very efficient highly-polished reflector in silver aluminium finish. Suitable for PAR reflector halogen, the range comes with a standard white decorative plastic ring. Accessories are common and interchangeable for the entire 145 range. Colour options upon request.

Features
• Compact design with "3 in 1" concept of integrating the lamp-reflector-control gear
• Modular concept with same diameter allows a consistent appearance and interchangeable accessories and components e.g. reflectors to cater to different lighting needs
• Extruded aluminium housing creates a compact and sturdy architecture to interface with the different accesssories
• Double ring structure – the outer plastic ring allows colour selections and the inner frame is made of die-cast aluminium
• Quick "click and twist" design of base plate makes the installation easy and convenient

Application
• Mixed use shopping centres
• Corridors
• Department stores - general lighting
• High-end fashion shops and boutiques
• Restaurants, cafeterias and hotels
• Museum display, public buildings and waiting areas
• Transport buildings eg airport terminals and interchanges
• Small offices and conference rooms
