

# ArcForm – a new dimension in LED lighting

# ArcForm

More and more customers are looking for lighting solutions that support the architecture of the building and the types of activity taking place in certain zones. A luminaire with soft light and a gentle appearance is perfect for those places where additional quality of light adds value. With the cleanly designed ArcForm, the optical system using MesoOptics technology creates soft, comfortable lighting, with a full luminous surface. The luminaire's wide beam shape means that the light distribution is uniform throughout the entire space, rather than directional. And the LED boards and optics offer significant energy savings compared to a similar conventional solution.

#### **Benefits**

- · Creates pleasant spaces that are well lit in a soft and gentle way
- · When looking directly into the luminaire, the light is not glaring or uncomfortable
- Offers immediate savings of over 50% on energy cost compared to a similar conventional solution

#### Features

- Optical system using MesoOptics technology
- Wide beam shape, uniform light distribution
- · LED boards and optics
- Design is clean, crisp and free of clutter

### Application

General lighting

#### Specifications

# ArcForm

| Туре                      | RC660B                        |
|---------------------------|-------------------------------|
| Ceiling type              | Exposed T-bar ceiling         |
| Ceiling grid              | Module size in length: 600 mm |
| Light source              | Philips Fortimo LED Line 1R   |
| Power (+/-10%)            | LED36S version: 37 W          |
|                           | LED44S version: 46 W          |
| Beam angle                | 114°                          |
| Luminous flux             | LED36S version: 3600 lm       |
|                           | LED44S version: 4400 lm       |
| Correlated Color          | 3000 or 4000 K                |
| Temperature               |                               |
| Color Rendering Index     | ≥ 80                          |
| Median useful life L70B50 | 70,000 hours                  |
| Median useful life L80B50 | 50,000 hours                  |
| Median useful life L90B50 | 25,000 hours                  |

| Driver failure rate   | 1% per 5000 hours                           |
|-----------------------|---|
| Average ambient       | +25 °C                                      |
| temperature           |   |
| Operating temperature | +10 to +40 °C                               |
| range                 |   |
| Driver                | Built-in                                    |
| Mains voltage         | 230 or 240 V / 50-60 Hz                     |
| Dimming               | DALI-dimmable                               |
| Material              | Housing: zinc-coated steel                  |
| Color                 | White                                       |
| Optic                 | MESO optic (MO)                             |
| Connection            | Wieland connector GST 18, 3 or 4 poles (W)  |
|                       | Push-in connector (PI)                      |
| Installation          | Individual; lay-in in exposed ceiling grids |
|                       | No through-wiring possible                  |
|                       |   |
