

# Philips ProFlood LED: eye-catching display effects

# **ProFlood LED**

Philips ProFlood LED is a waterproof projector for both image projection (gobo) and creative light framing (shutters). This powerful architectural floodlighting tool gives display lighting designers superb creative freedom to project everything from images to logos. With an adjustable beam, the projector's output can be fine-tuned to precisely match the surroundings. ProFlood LED can be used to create a particular effect, virtually 'sculpting' the light to support architectural light concepts for every city and urban context. Eye-catching display effects made easy with ProFlood LED.

### **Benefits**

- Supports any creative light project (city beautification, city center, parks, shopping area)
- Exceptionally high-quality output
- · Advanced control of light distribution and significantly reduced glare
- · Easy to install and adjust
