

QVF LED – compact and economical floodlight

QVF LED

The QVF LED range of compact general-purpose floodlights are designed as an economical replacement for traditional halogen-lamp floodlights. The combination of high-power LEDs and a high-reflectivity optic ensures excellent light output for down- or uplighting applications. The floodlights' LED technology enables substantial energy and maintenance savings. A universal mounting bracket allows wall or surface mounting, with the possibility of tilting upwards or downwards. QVF LED floodlights can also be equipped with a combined presence/daylight sensor.

Fordeler

- Reliable thermal design
- Protected against voltage surges caused by lightning
- High safety

Funksjoner

- Available in three compact versions
- Robust and durable construction
- IP65 rating
- 4 kV surge-protected
- Enhanced safety features
- Pre-wired with mains cable

Søknad

- Architecture and landscape lighting
- Billboard and advertising lighting
- Security, amenity and parking area lighting
