

# Accessories – completing your system

## Indoor Accessories

Indoor lighting control accessories cover all the user interfaces, sensors, cables, dimmers and other accessories that can be used with our control systems or stand-alone with our lighting systems.

### Benefits

- Indoor accessories offer the possibility to extend our indoor lighting control systems.

### Features

- The performance and capabilities of the products vary according to the system they are connected to.

### Application

- Indoor accessories are designed for indoor lighting control systems
