

Performance exterior linear grazing luminaire with single temperature white light

eW Graze QLX Powercore

eW Graze QLX Powercore is perfect for applications calling for a balance of cost and performance. Graze is a high-performance, exterior linear luminaire designed to highlight architectural features ranging from surface textures and molding details to archways and windows. Graze Essential White luminaires offer a single channel of white light. Available in 2700 K, 3000 K, 3500 K, 4000 K, and 5500 K. Multiple luminaire lengths, beam angles, output levels, and power consumption levels support a large range of façade or surface illumination applications. Low-profile housing, connectorized cabling, a universal power input range, and direct line voltage operation make Graze luminaires easy to install and operate.

Benefits

- Superior light quality, consistency and output thanks to Color Kinetics Optibin and Chromasync technologies
- Simple installation and long run lengths enabled by Powercore technology
- Static and dynamic lighting effects can be designed, displayed and changed via Color Kinetics controllers

Features

- Medium-intensity exterior-rated linear LED luminaire with output comparable to first-generation product at lower power consumption
- Consistent output and beam quality thanks to holographic diffusion technology
- Unparalleled control via adjustable dimming curves and transition speeds
- Superior output matching from fixture to fixture thanks to Optibin and Chromasync technologies

Application

- Illumination of exterior facades and structures
- Illumination of moderate architectural details
- Signage and flood-/wash-lighting applications (depending on beam angle)
