

Premium interior linear cove and accent luminaire with single temperature white light

eW Cove MX Powercore

eW Cove MX Powercore delivers the highest light output in the line of solid white linear cove lights from Color Kinetics. eW Cove MX Powercore can be used for accent lighting and indirect general illumination, as well as the full range of wall and ceiling cove applications. eW Cove MX Powercore meets or exceeds the performance of comparable linear fluorescent strip cove lights while lowering installation, energy, and maintenance costs. eW Cove MX Powercore offers environmentally conscious buyers a green, energy-efficient lighting solution without sacrificing quality or quantity of light.

Benefits

- Maximum light output
- Multiple options for design and application flexibility
- Cost-effective, easy to install, and long lifetime

eW Cove MX Powercore

Features

- Fixed white or solid-color light output of up to 2000 lumens per meter
