

Vaya Cove – compact and economical LED fixture

Vaya Cove

Vaya Cove is an extremely cost-effective and reliable linear LED fixture that minimizes the initial investment while offering flexibility, in a compact design, to create cove and accent lighting effects. It is available in three lengths, two static white versions and an RGB color version (controlled via DMX and addressed via two-way communication). Vaya Cove is part of a complete range of Philips Vaya LED products.

Benefits

- Economical LED fixture for interior use
- Easy integration into architectural elements thanks to compact dimensions and low profile

Features

- Static white light – 3000 or 4000 K; dynamic RGB version (DMX-controlled); MonoColor and additional color temperatures
- available on request Available in 0.33, 0.66 and 1.2 m lengths
- Suitable for less demanding applications requiring up to 716 lm/m
- Energy-efficient
- Environmentally friendly

Application

- Cove lighting
- Backlighting
