

# ColourChaser – Spiel mit den Farben

## ColourChaser

Für die Mischung von RGB-Farben bietet Philips verschiedene DMX-Steuerungen an. Sowohl das ColourChaser Wheel als auch der ColourChaser DMX arbeiten mit dem DMX512-Protokoll.

### Vorteile

- Set-and-forget operation
- Ability to download and play custom shows
- Ultra-compact and lightweight

### Merkmale

- Shows loop automatically – no trigger or additional configuration required
- Choice of six configurable effects
- Download and play custom ColorPlay 3 light shows
- Weight of only 87 g and a small footprint
- Includes a removable 2 GB microSD card, generous enough to store a lengthy or complex ColorPlay 3 light show

### Anwendung

- Small to medium-sized installations with dynamic RGB or dynamic white DMX controllable fixtures
