

Vaya Touch Controller – cost-effective DMX controller

Vaya Touch Controller

Vaya Touch is a stand-alone DMX512 controller designed for use with LED lighting fixtures. With Vaya Touch you can select from six pre-set colors, select the color of your choice, or select from six dynamic sequences (Programs). In addition, there are six brightness presets for each color or program, and six speed levels for the program's color-changing light shows. The toggle wheel lets you seamlessly select a custom color or brightness. The custom color can be stored in one of the six memory presets. Vaya Touch is mounted in single-gang (US) wall boxes.

Benefits

- Cost-effective DMX controller
- Versatile
- Easy to use

Features

- Touch interface
- Stand-alone
- 6x programs, colors, speed levels and brightness levels
- Adjust and store your favorite color
- Choice of white or black faceplate

Application

- In any application using Vaya Color products
