PHILIPS

Lighting

Philips Colour Kinetics offers a range of software and hardware tools for addressing, configuring, programming, and commissioning LED lighting systems.

LED Lighting Systems Accessories

Tools and utilities for addressing, configuring, and commissioning can add new dimensions of control and versatility to LED lighting systems.

Benefits

- <bulletlist><bullet>Configuring</bullet><bullet>Programming</bullet><bullet>Commissioning</bullet></bulletlist>

Features

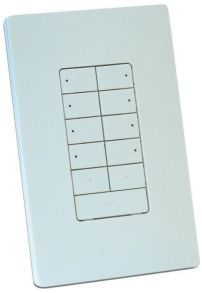

- <bulletlist><bullet>Enables control of your DMX-based lighting installation</bullet><bullet>Lets you configure, test, and demonstrate Philips Colour Kinetics lighting systems via computer</bullet><bullet>Including mobile application for discovering and configuring Philips Colour Kinetics devices on a KiNET network from an Apple iPhone, iPod Touch, or iPad.</bullet></bulletlist>

LED Lighting Systems Accessories

Application

• Retail & Hospitality

Versions

Controller Keypad is a convenient user interface to the iPlayer3 that triggers up to eight light shows at the touch of a button.

SmartJack Pro is a USB-to-DMX converter that enables control of DMX-based lighting installation from a computer. Combined with QuickPlay Pro software, SmartJack Pro lets you assign and test light addresses, configure and test DMX addresses, and author basic light shows. SmartJack Pro is compatible with all Philips CK Intelligent Series color changing lighting fixtures.
