

Philips Color Kinetics offers a broad range of Power- and Data supplies

LED Lighting Power/Data supplies

We designed our power/data supplies to integrate seamlessly with our color-changing, intelligent white, and fixed-color LED lighting fixtures. Industry-leading features include power factor correction, conduit-ready connections, and auto-switching from 100 to 240 VAC.

Benefits

- Power/Data Supplies for both interior and exterior use
- US and Metric options available

Features

- Philips Data Enabler Pro merges line voltage and control data and delivers them to Powercore fixtures over a single cable, dramatically simplifying installation and lowering total system cost.
- Support for both DMX and Ethernet configurations.
- Allows for ActiveSite integration.

Application

- Retail & Hospitality

LED Lighting Power/Data supplies

Versions

PWRDAT PDS-375 TRX

Product details

Wiring Compartment for Data
Receiver IntelliPower

Power/Data Supply

Accessories

DMX512 adapter cable

Ordercode 910503700061

PDS-150e

Ordercode 910503700092

PDS-60ca

Ordercode 910503700093

PDS-70mr 24V

Ordercode 910503700107

Ordercode 910503700383

DMX crossover cable, CK to Esta
Ordercode 910503700737

Ordercode 910503701210

Multi-protocol converter
Ordercode 910503701414

Unmanaged switch 4 POE port, 48 V
Ordercode 910503702557

Ordercode 912400130191

Accessories

The Data Enabler IntelliPower accepts standard 2 + ground mains power from an electrical panel and control data from a DMX or Ethernet lighting controller, merges the power and data streams, and outputs the combined power/data stream over standard 2 + ground wiring. By leveraging existing electrical and physical infrastructures, IntelliPower technology lets you affordably install dynamic, digitally controllable LED lighting where it was never possible before.

Ordercode 912400130327

The Data Receiver IntelliPower accepts the combined 2 + ground power/data stream from a Data Enabler IntelliPower and translates it into a 3 + ground scheme (line, neutral, ground, and data) in order to output it to intelligent Powercore LED lighting fixtures from Philips Color Kinetics. By leveraging existing electrical and physical infrastructures, IntelliPower technology lets you affordably install dynamic, digitally controllable LED lighting where it was never possible before.

Ordercode 912400130329

The Data Receiver IntelliPower accepts the combined 2 + ground power/data stream from a Data Enabler IntelliPower and translates it into a 3 + ground scheme (line, neutral, ground, and data) in order to output it to intelligent Powercore LED lighting fixtures from Philips Color Kinetics. By leveraging existing electrical and physical infrastructures, IntelliPower technology lets you affordably install dynamic, digitally controllable LED lighting where it was never possible before.

Ordercode 912400130330

The Data Receiver IntelliPower accepts the combined 2 + ground power/data stream from a Data Enabler IntelliPower and translates it into a 3 + ground scheme (line, neutral, ground, and data) in order to output it to intelligent Powercore LED lighting fixtures from Philips Color Kinetics. By leveraging existing electrical and physical infrastructures, IntelliPower technology lets you affordably install dynamic, digitally controllable LED lighting where it was never possible before.

Ordercode 912400130331

The Data Receiver IntelliPower accepts the combined 2 + ground power/data stream from a Data Enabler IntelliPower and translates it into a 3 + ground scheme (line, neutral, ground, and data) in order to output it to intelligent Powercore LED lighting fixtures from Philips Color Kinetics. By leveraging existing electrical and physical infrastructures, IntelliPower technology lets you affordably install dynamic, digitally controllable LED lighting where it was never possible before.
