

# Bespoke solutions

## Metronomis 1 Poles and Brackets

Metronomis is a family of highly distinctive luminaires and dedicated poles and brackets, which can be used with a wide diversity of optics to provide architects and lighting designers with the total solution needed to create a unified, consistent lighting design that still reflects the differences in urban culture and history. In its daytime appearance, Metronomis integrates harmoniously with any street scene, while its night-time appearance is both functional – guiding people and traffic safely through the city – and decorative, creating a pleasant ambience in city squares and pedestrian precincts.

### Benefits

- The Metronomis product range offers a total solution to architects and lighting designers
- Together with the available poles and brackets, the Metronomis product family forms a flexible, integrated range that adds harmony to the urban environment

### Features

- Dedicated poles and brackets
- The Metronomis pole is an exclusive design, with heights from 3.5 to 6m, tailored to the Metronomis luminaire range
- The brackets are designed to ensure visual consistency between the column and the luminaire

### Application

- Urban and architectural areas
- Commercial and business centers
