

# A compact flexible linear LED luminaire for high-quality, uniform white light

## Vaya Free Form

Vaya Free Form is a compact, concealed flexible linear luminaire for lighting straight or curved coves, recessed areas and niches. Vaya Free Form provides even, uniform white light in run lengths of up to 10 m (32.8 ft). In indoor applications, the luminaire can be cut and easily reconnected, enabling runs along unusually shaped and difficult-to-light spaces, without soldering or tools. In outdoor applications, the luminaire can be cut and resealed to retain its IP66 rating.

### Benefits

- With IP40 and IP66, Vaya Free Form is rated for indoor and outdoor environments
- Comes in 3000 K and 4000 K standard colour temperatures. Custom configurations available in 2200 K, 2700 K, 5000 K, and 6000 K
- Both the indoor and outdoor versions can be cut to any length at 62.5 mm (2.5 in) intervals

# Vaya Free Form

## Features

- Housed in a rugged extruded silicone enclosure. With IP40 and IP66, Vaya Free Form is rated for indoor and outdoor environments.
- The silicone enclosure features opaque sides and a frosted lens, delivering a consistent 120° light beam across the length of the LED strip and shining the light only where you aim it. Its compact size and short mixing distance provide even illumination and minimise socket shadows.
- With a binning tolerance of 3 SDCM, there is virtually no colour difference between Vaya Free Form luminaires. So if you ever need to replace a damaged unit, your eyes won't notice the difference.
- Comes in 3000 K and 4000 K standard color temperatures. Custom configurations are also available in 2200 K, 2700 K, 5000 K, and 6000 K color temperatures.
- Mounting options ensure consistent, precise placement on virtually any surface, so your LEDs will remain securely in position. The aluminium track ensures straight, precise runs, while polycarbonate mounting clips are ideal for custom positioning around curves and bends.

## Application

- Concealed flexible lighting for coves, recessed areas and niches.
