

# 302 - performance. Pure and Simple

## 302 Up/Down Cylinder

The 302 LINE is a series of diecast cylinders for up and down lighting in a single, integrated form. The 302 incorporates two 300 LINE cylinders using a cast bracket to create a single assembly. The 302 offers choices with optics and sources to allow for a variety of aesthetic elements on building surfaces.

### Benefits

- Lasting durability and reliability
- Simplified mounting
- Suitable for a variety of applications
- Minimized glare

### Features

- Die cast aluminum construction
- Matching brackets and one-piece luminaire
- Offers a wide choice of baffles and trims
- Recessed optical system

### Application

- Education
- Municipal Buildings
- Security Lighting
- Office
- Parking Garages
- Hospitality
