

The complimentary portion of the portfolio to add a discreate and architectural feel to any application

Architectural Message Sign

The Chloride AMS is an LED Architectural Message Sign with 4 faceplate styles and variety of mounting accessories. It is ideal for providing informational and warning messages in a wide range of architectural spaces. Used in Hospitals, X-ray Suites and other medical settings where it is critical to know if a space is occupied or not accesible to personnel.

Benefits

- Customizable messaging content
