

High efficiency

Asymmetric

T5 Strip Series symmetric and asymmetric reflector options. These reflectors come in standard white or specular silver at an overall depth of 1 3/8". Reflector options include solid, slotted and perforated for both of the symmetric and asymmetric designs .

Benefits

- Many length options for fit different needs

Features

- Only 2' wide
- Optional white or specular, symmetric and asymmetric reflectors

Application

- Office
- Banks
- Hospitality
- Education
