

Vaporlume – Sealed integrity and high performance

DW Vaporlume LED

The DW LED Vaporlume is a wet location industrial product designed for both indoor and outdoor applications. It is designed with an LED light source, enabling it to easily replace fluorescent sources due to its reliable performance in cold conditions with the added benefit of energy savings.

Benefits

- Designed for areas of high humidity, water vapour, rain, incidental water spray or other non-corrosive or non-flammable liquids
- Designed to be non-corrosive

Features

- Available in 2', 4' or 8'
- Acceptable for outdoor and indoor installations
- Can be surface- (wall/ceiling) or suspended-mounted
- Suitable for use in wet locations

Application

- Cleanrooms
- Food Processing
- Petrol and Convenience
- Parking Garages
