

GUN Series - Aesthetic and efficient

GUN Series Uplight High Bay

An aesthetically pleasing, high efficiency fluorescent high-bay that provides exceptional light distribution for general areas with a narrow design that allows for up-light. The clean and crisp look of the GUN coupled with the up-light component make it an ideal choice for retail applications. Other applications include warehouses, manufacturing facilities, museums, hotels and gymnasiums with the wireguard safety option.

Benefits

- Sturdy and rigid luminaire
- Good optical performance
- Provides uplight
- Fits many applications

Features

- Heavy gauge cold rolled steel housing
