

Complete digital lighting solution

RelaxView Healthcare Lighting System

The Day-Brite / CFI RelaxView Healthcare Lighting Solution provides a complete digital lighting solution benefiting both healthcare professional and patient. The LED Graphic Panels may be mounted on the ceiling and wall as a distraction during long procedures. While healthcare professionals have general ambient lighting to aid in the performance of their tasks. Wall dimmers and power distribution modules provide additional control of the environment for the task at hand as well as navigation throughout the room.

Benefits

- Great distraction during long procedure

Features

- mounted on wall or ceiling

Application

- Hospitals and Care Centers
