

Straight Round Aluminum Pole - superior structural quality

Straight Round Aluminum Pole

The Gardco Lighting straight round aluminum poles consist of a one piece extruded aluminum lighting standard mounted to a cast aluminum base, a hinged aluminum base, or a structural quality carbon steel base tenon. The poles are finished with either Architectural Class 1 anodizing or electrostatically applied TGIC polyester powder coat. All poles include anchor bolts, full base cover, hand hole, ground lug and top cap.

Benefits

- Built to withstand harsh environmental conditions
- Superior corrosion resistance
- Optimal strength and durability

Features

- 4", 4 1/2" or 5" diameter poles
- Available in various heights ranging from 8' to 30'
