

Banner Arms (BA) - increasing pole functionality

Pole Options - Banner Arms (BA)

Lumec's Banner Arms are designed to fit on a round, fluted, square and multi-sided pole, using a central tubing inserted through two opposite 1 3/8" (35 mm) holes. The aluminum banner arm [1 1/16" diameter (27 mm)] easily slip-fits into the central tubing and it is secured with the attachment by stainless steel hardware. Completing the installation are two end-of-arm decorative casting. Consult factory for all banner arm heights and orientations. Optional Lily Flower end-of-arm casting available (LF option). Specify width of banner(s) as the xx dimension in the ordering number. Order Banner in 1" (25 mm) increments only (ex: BAS11) ~LT~br~GT~ ~GT~ Lumec strongly recommends that the banner arm should be at least 8 feet from the ground.~LT~a href="http://www.lumec.com/Lumec3Dv3/home/index_en.php" target="_blank"~GT~ ~LT~b~GT~Lumec3D: Online 3D Configurator~LT~/b~GT~ ~LT~/a~GT~
