

# iColor Accent MX Powercore

Precision-controlled direct view linear exterior LED luminaire with intelligent color light

iColor Accent MX Powercore is a direct view linear LED luminaire ideally suited for creating long ribbons of color and color-changing effects. Variable resolution offers the precision to display large-scale video, graphics, and intricately designed effects in a host of architectural, retail, and entertainment settings. iColor Accent MX Powercore offers the efficiency and cost-effectiveness of Powercore technology in an outdoor-rated, road-ready aluminium housing.

- Integrates patented Powercore technology—Powercore technology rapidly, efficiently, and accurately controls power output to luminaires directly from line voltage. The Philips Data Enabler Pro merges line voltage and control data and delivers them over a single cable, dramatically simplifying installation and lowering total system cost.
- Native, onboard Ethernet—Luminaires accept Ethernet input from the Data Enabler Pro to support long control runs not subject to DMX data and addressing limitations.
- Precise resolution control—610 mm (2 ft) and 1219 mm (4 ft) lengths are easily connected to create long, continuous columns of intense, dynamic color. Luminaires can be addressed and controlled in increments down to 30 mm (1.2 in), or up to 1219 mm (4 ft).

[Product page](#)

Viewing Angle	220°
Lumens per foot	82
LED Channels	Red/Green/Blue
<a href="#">Custom products information available</a>	

Input Voltage	100 to 240 VAC, auto-ranging, 50/60 Hz via Data Enabler Pro
Housing	Sealed plastic and extruded aluminium
Approbations	UL/cUL, CE
Environment	Dry/Damp/Wet Location, IP66
