

# DALI Square Track

## RCS750 5C6 L3000 ALU (XTSC6300-1)

3-circuit power track adapter with DALI pulse control GAC600

Designed for use with DALI projectors with a dedicated adaptor, the DALI Square Track is ideal for users who want lighting flexibility to create a specific ambience in their shop and to reduce energy consumption. The system is made up of a solid aluminium track, which is available in various lengths and with a choice of electrical conductors. Any given configuration can be easily created – horizontal or vertical, mounted on or in the ceiling, on the wall or on free-standing panels. The system can also be used as a floating structure. All luminaires have a separate power supply and can be switched selectively. They can easily be moved to alter the lighting and presentation. In this way, a multifunctional track system can be created for accent lighting as well as for suspending advertising and decorative material.

### Product data

| General Information      |                                                                     |
|--------------------------|---------------------------------------------------------------------|
| Protection class IEC     | Safety class I                                                      |
| Glow-wire test           | Temperature 850 °C, duration 5 s                                    |
| Suspension accessories   | No [-]                                                              |
