Red, green and blue - Very wide beam angle 145° - 50 pcs -  
Transparent dome 4 inch separated - Black

iColor Flex LMX is a flexible strand of large, high-intensity, full-color LED nodes designed for extraordinary effects and expansive installations without the constraints of fixture size, shape, or space. Each iColor Flex LMX strand consists of 50 individually addressable LED nodes, featuring dynamic integration of power, communication, and control. The flexible form factor accommodates two- and three-dimensional configurations, while high light output affords superior long distance viewing for architectural accent and perimeter lighting, large-scale signage, and building-covering video displays.
