

iColor Flex MX

BGC492 50xLED-MD/RGB 7,5V 120 TSDM12 WH

Red, green and blue - Very wide beam angle 120° - 50 pcs -
Transparent dome 12 inch separated - White

iColor Flex MX is a multi-purpose, high-intensity strand of 50 full-color LED nodes for generating extraordinary effects without the constraints of fixture size or shape. iColor Flex MX enables patterns and video on almost any interior or exterior surface, including ceilings, floors, three-dimensional objects, sculptures, and more. Its small node size allows installation in tighter spaces than the larger iColor Flex SLX and iColor Flex LMX strands.
