SSLCTR LRC9642 VSM PRO DVI SSD

ColourChaser is a range of simple, easy-to-use lighting control solutions that enable users to create their own lighting ambience. Providing out-of-the-box functionalities, Philips' user-friendly control solutions are ready for use directly after installation. Even users with minimal technical background can install and operate these 'in-a-box solutions'. With the ColourChaser family, it is possible to directly set a color, dim, or create one's own color sequence, simply by pushing a button or turning a wheel.
