SM530C LED34S/830 PSD PI5 L1130 ALU

TrueLine OC - LED Module, system flux 3400 lm - 830 warm white - Power supply unit with DALI interface - Push-in connector 5-pole (PI) - 1130 mm - Aluminium

Architects need a lighting solution that matches the interior architecture of the property they are working on. They want a light line with an elegant design and very high light levels. Specifiers need luminaires that enable them to save energy while at the same time providing the right level of light, in compliance with office lighting norms. And office workers want visually comfortable lighting conditions that help them perform better. TrueLine Recessed is able to meet all of these different requirements. TrueLine is also available in recessed and suspended versions.
