## SP532P LED47S/840 PSD PI5 SM2 L1410 9003

TrueLine DIRECT/INDIRECT OC, LED module, system flux 4700 lm, 840 neutral white, Power supply unit with DALI interface, Push-in connector 5-pole

Architects need a lighting solution that matches the interior architecture of the space they are enhancing. They want a light line with elegant proportions and high light levels that offers maximum design freedom. Philips TrueLine is a flexible linear luminaire for indoor office applications that offers excellent quality with the promise of future-proof upgrades. Specifiers need luminaires that save energy, at the same time as providing the right level of light. TrueLine recessed meets both these sets of requirements. Not only is it compliant with the WELL Building Standard for Light, TrueLine surface is rated UGR<lt/>ly, which is compliant with all office norms (OC). TrueLine also comes in surface and recess-mounted versions. All the luminaires in the family are available in different lengths, shapes, colors and light outputs. This offers the ultimate design flexibility and unlimited possibilities. TrueLine luminaires are also a sustainable, future-proof choice with high efficiency up to 140 lm/W and the option to upgrade to wireless connectivity and control.

#### **Warnings and Safety**

- The product is IPXO and, as such, is not protected against water ingress. Therefore, we strongly recommend that the environment in which the luminaire is to be installed is suitably checked.
- If the above advice is not taken and the luminaires are subject to water ingress, Philips / Signify cannot guarantee safe failure and the product warranty will become void.

#### **Product data**

General Information		
Lamp family code	LED47S [LED module, system flux 4700 lm]	
Cap-Base	- [-]	

Light source replaceable	No	
Number of gear units	1 unit	
Gear	GRT [Gear tray (without gear)]	

Datasheet, 2023, October 9 data subject to change

## TrueLine, suspended

Driver included	Yes	Constant light output
Remarks	*-Per Lighting Europe guidance paper	
	"Evaluating performance of LED based	Mechanical and Housing
	luminaires - January 2018": statistically there	Housing Material
	is no relevant difference in lumen	Reflector material
	maintenance between B50 and for example	Optic material
	B10. Therefore, the median useful life (B50)	Optical cover material
	value also represents the B10 value.	Fixation material
Service tag	Yes	Housing Color
Product family code	SP532P [TrueLine DIRECT/INDIRECT OC]	Optical cover finish
Lighting Technology	LED	Overall length
Value ladder	Specification	Overall width
Embedded control	-	Overall height
CE mark	Yes	Dimensions (Height x Width
Warranty period	5 years	
Flammability mark	For mounting on normally flammable surfaces	Approval and Applicatio
ENEC mark	ENEC plus mark	Ingress protection code
Glow-wire test	Temperature 650 °C, duration 5 s	Mech. impact protection cod
EU RoHS compliant	Yes	Protection class IEC
Light Technical		Initial Performance (IEC
Luminous Flux	4,750 lm	Luminous flux tolerance
Correlated Color Temperature (Nom)	4000 K	Initial chromaticity
Luminous Efficacy (rated) (Nom)	140 lm/W	Power consumption tolerand
Color rendering index (CRI)	≥80	- rower consumption toterand
Number of light sources	1	Over Time Performance
Light source color	840 neutral white	
Optic type	-	Control gear failure rate at museful life 50000 h
