

Maxos, mounting accessories

9MX056 MB-SW L1250 SI

ACC MAXOS, Srebrny

The light line fulfils two functions: first, it provides a sturdy in-line mounting rail on which to fix the electrical units, and second, it provides a housing for the electrical cables that bring power to the units. For suspended light lines, the light-line sections are connected using the integrated electrical connector and a sturdy external mechanical coupling piece (accessory). Surface-mounted light lines use the same integrated electrical connector and an internal coupler (accessory). On the upper part of the light-line section, special knock-out openings enable cable entry wherever needed. The basic accessories of Maxos TL-D trunkings can also be used for the TL5 trunkings.

Dane produktu

Informacje ogólne		Pełna nazwa produktu	
Kolor akcesorium	Srebrny	Full EOC	403073225985400
Rodzina produktów	9MX056 [ACC MAXOS]	Kod zamówienia	25985400
