9MX056 EA7

ACC MAXOS

The swivel device is a versatile mechanical connecting device for Maxos TL-D and TL5 light-lines and enables variable angles between the light-lines. The minimum angle is 45 degrees. Due to its attractive design it is often used in application areas such as shops, schools and museums. Up to four light-lines can be connected with one swivel device. The housing is made of plastic, with a white or silver coating, and with inner supporting elements made of steel. If needed, the swivel device can accommodate lighting control sensors, loudspeakers, etc. It is pre-mounted with an adjustable quick hanger with a 1.25m steel suspension wire. One dedicated coupling piece (9MX056 CP-SD WH/SI) per trunking section is necessary to connect the trunking to the swivel device. Electrical components for mains feed-through have to be ordered as required.

Product data

General Information		Full product name	9MX056 EA7
Accessory colour	-	Full EOC	403073213546200
Product family code	9MX056 [ACC MAXOS]	Local code description	9ZZ000
Operating and Electrical		Order code	13546200
Input Voltage	220 to 240 V	Material no. (12 NC)	910674553421
Line Frequency	50 to 60 Hz	Local order code	9ZZ000
Approval and Application		SAP numerator – quantity per pack	1
Ingress protection code	-	EAN/UPC – Product/Case	4030732135462
Protection class IEC	Safety class I	Numerator – packs per outer box	1
Product Data		EAN/UPC - Case	4030732135462
Order product name	9MX056 EA7
