

Maxos mounting accessories

9MX056 PB BK

ACC MAXOS, Black

The light line fulfils two functions: first, it provides a sturdy in-line mounting rail on which to fix the electrical units, and second, it provides a housing for the electrical cables that bring power to the units. For suspended light lines, the light-line sections are connected using the integrated electrical connector and a sturdy external mechanical coupling piece (accessory). Surface-mounted light lines use the same integrated electrical connector and an internal coupler (accessory). On the upper part of the light-line section, special knock-out openings enable cable entry wherever needed. The basic accessories of Maxos TL-D trunkings can also be used for the TL5 trunkings.

Product data

General Information			
Accessory colour	Black	Full product name	9MX056 PB BK
Product family code	9MX056 [ACC MAXOS]	Full EOC	403073267457299
		Order code	67457299
		Material no. (12 NC)	910680011226
Mechanical and Housing		SAP numerator – quantity per pack	1
Material	Steel	EAN/UPC – Product/Case	4030732674572
		Numerator – packs per outer box	10
Approval and Application		EAN/UPC – Case	4030732276547
Ingress protection code	-		
Protection class IEC	-
