

Maxos fusion

LL500E IPT-CG

Maxos fusion Electrical

Maxos fusion is an adaptable LED trunking system that offers an excellent quality of light while more than halving energy costs compared to fluorescent lamps. For retail applications, a family of linear panels, non-linear modules and a spot portfolio can be smoothly integrated into the track backbone to let your merchandise sparkle and stand out. For industrial applications, the focus is on reducing installation and maintenance cost by using fewer linear panels. With the electrical set-up of up to 13 wires, the freedom to position these fixtures as required and the integration of other services/third-party hardware, the system allows you to reduce ceiling clutter. It can also be easily re-configured to accommodate future lay-out changes. The infrastructure is enabled to integrate sensors for data collection, giving you the opportunity to use insightful granular information to support your business.

Product data

General Information	
Accessory color	Black
Product family code	LL500E [Maxos fusion Electrical]
Value ladder	Specification
Operating and Electrical	
Input Voltage	- V
Line Frequency	- Hz
Mechanical and Housing	
Material	-
Approval and Application	
Ingress protection code	-

Mech. impact protection code	IK00 [No protection]
Protection class IEC	-
Product Data	
Order product name	LL500E IPT-CG
Full product name	LL500E IPT-CG
Full product code	871869637479599
Order code	910925864256
Material Nr. (12NC)	910925864256
Numerator - Quantity Per Pack	1
EAN/UPC - Product/Case	8718696374795
Numerator - Packs per outer box	18
EAN/UPC - Case	8718696383742
