# **PHILIPS** Lighting

# **FlexElite RGBW**

# FlexElite iColor, RGBW, 20 Nodes, White Node/ Cable, 610 mm (24 in) On-Center Node Spacing

FlexElite iColor, RGBW, 20 Nodes, White Node/Cable, 610 mm (24 in) On-Center Node Spacing

FlexElite is the brightest and most flexible member of our popular Flex family. It includes a from-the-ground-up redesign of all major elements, from its form factor to internal electronics to mechanical design. We created FlexElite to meet the challenges posed by large, unconventional buildings and structures. At its core, you'll find an innovative modular design that lets you create the exact number and configuration of nodes that you need for your design. FlexElite's sections and jumper cables click together quickly and easily, allowing unequalled customization impossible with less-modular solutions. Longer run lengths and node spacing let you take on larger challenges than possible in the past. FlexElite RGBW adds a separate white LED creating better-quality whites compared to RGB.

#### **Product data**

| General information         |                            |
|-----------------------------|----------------------------|
| Light source color          | Red, green, blue and white |
| Light source replaceable    | No                         |
| Optic type                  | Beam angle 120°            |
| Optical cover/lens type     | Tempered glass             |
| Luminaire light beam spread | 140°                       |
| CE mark                     | CE mark                    |
| UL mark                     | UL and cUL mark            |
| Optic type outdoor          | Very wide beam angle 120°  |
|                             |                            |
| Light technical             |                            |
| Light source flux per node  | 111 lm                     |
|                             |                            |

| On-axis intensity in candela | 42                         |
|------------------------------|----------------------------|
| Luminance per node           | 89939                      |
|                              |                            |
| Operating and electrical     |                            |
| Input Voltage                | 48 V                       |
|                              |                            |
| Mechanical and housing       |                            |
| Housing Material             | Polybutylene terephthalate |
| Optical cover/lens material  | Tempered glass             |
| Color                        | White                      |
