FlexElite iColor, RGBA, 2 Nodes, White Node/Cable, 1 m (3.3 ft) On-Center Node Spacing

FlexElite iColor, RGBA, 2 Nodes, White Node/Cable, 1 m (3.3 ft) On-Center Node Spacing

FlexElite is the brightest and most flexible member of our popular Flex family. It includes a from-the-ground-up redesign of all major elements, from its form factor to internal electronics to mechanical design. We created FlexElite to meet the challenges posed by large, unconventional buildings and structures. At its core, you'll find an innovative modular design that lets you create the exact number and configuration of nodes that you need for your design. FlexElite's sections and jumper cables click together quickly and easily, allowing unequalled customization impossible with less-modular solutions. Longer run lengths and node spacing let you take on larger challenges than possible in the past. FlexElite RGBA adds a separate amber LED which expands the available range of colors to include warmer tones such as rich gold, yellow and orange shades.
