# **PHILIPS** Lighting

# **MultiOne Configurator**

## MULTIONE INTERFACE USB2 DALI

Today's manufacturers are able to offer perfectly tailored lighting solutions that are intelligent and so can also be adapted to tomorrow's needs. Philips' new configurable gear units with built-in control functions allow programming of the luminaire's behavior in order to maximize energy savings and minimize environmental impact.Philips' light configurator is the single intuitive system allowing users to configure all the different functions in every programmable driver from Philips. Creating the perfect match for the application has never been easier.

#### **Product data**

| Operating and Electrical        |                                      |
|---------------------------------|--------------------------------------|
| Input Voltage                   | 5 V                                  |
|                                 |                                      |
| Wiring                          |                                      |
| Connector Type Input Terminals  | Mini USB (female)                    |
| Connector Type Output Terminals | WAGO 250 (2 connections in parallel) |
| Output Wire Cross Section (Max) | 1.5 mm²                              |
| Output Wire Cross Section (Min) | 0.2 mm²                              |
|                                 |                                      |
| Temperature                     |                                      |
| Ambient temperature range       | 0 °C to 50 °C                        |
| T-Case Lifetime (Nom)           | 65 ℃                                 |
| T-Case Maximum (Max)            | 65 ℃                                 |
|                                 |                                      |
| Approval and Application        |                                      |
| Approval Marks                  | CE marking                           |
