

# Dynalite System Integration

## DDFCUC010

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

### Product data

| General Information |   |                                   |               |
|---------------------|---|-----------------------------------|---------------|
| Remarks             | Please download the Lighting – Product Data Sheet for more information and ordering options | Order code                        | 52600300      |
| CE mark             | CE mark   | SAP numerator – quantity per pack | 1             |
| EU RoHS compliant   | Yes   | Numerator – packs per outer box   | 1             |
| Product Data        |   | Material no. (12 NC)              | 913703081909  |
| Full EOC            | 871016352600300   | Full product name                 | DDFCUC010     |
| Order product name  | DDFCUC010   | EAN/UPC – Case                    | 8710163526010 |
|                     |   | EAN/UPC – Product/Case            | 8710163526003 |
