

Dynalite System Integration

DNG232

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

Product data

General Information		Order product name	
Remarks	Please download the Lighting – Product Data Sheet for more information and ordering options	Order code	DNG232
CE mark	CE mark	SAP numerator – quantity per pack	50794100
EU RoHS compliant	Yes	Numerator – packs per outer box	1
Temperature		Material no. (12 NC)	913703082109
Ambient temperature range	0 to +50 °C	Full product name	DNG232
Product Data		EAN/UPC – Case	8710163507958
Full EOC	871016350794100	EAN/UPC – Product/Case	8710163507941
