

Dynalite Multipurpose Controllers

DGBM200 V2

Within any project, many different lighting load types may be required to achieve a desired result. Each of these load types may require a different style of control. The Philips Dynalite range of multipurpose controllers allows customization of output types via different output module units. When using DIN-rail multipurpose controllers, a specific type of control can be chosen for each circuit: relay, leading-edge dimmer, trailing-edge dimmer, ballast control, controller with out-of-the-box functionality, fan control, and blind/screen control. In any combination, multiple load types can be controlled from a single device. This simplifies installation and prevents wasted capacity of circuits that are not required.

General Information	
Remarks	Please download the Lighting - Product Data Sheet for more information and ordering options

Product Data	
Order product name	DGBM200 V2
Full product name	DGBM200 V2
Full product code	871869688778300

Order code	913703261209
Material Nr. (12NC)	913703261209
Numerator - Quantity Per Pack	1
EAN/UPC - Product/Case	8718696887783
Numerator - Packs per outer box	1
EAN/UPC - Case	8718696894781
