

# InteGrade LED fixture system

## InteGrade fixture value 875mm(34") 830

Philips InteGrade LED fixture system – compact linear LED lighting for standard-size shelves InteGrade LED fixture system The InteGrade LED fixture system is an energy-efficient way to create an enjoyable shopping experience. Thanks to its compact dimensions, the fixture can be aesthetically integrated below and inside shelves, e.g. in a store interior or refrigerated cabinet. Asymmetrical optics direct the light where you want it, thus making optimum use of the light and energy. The products or background you want lit will be presented uniformly, with reduced glare and dark spots. Our LEDs have minimal output degradation and color shift, so the light remains consistent throughout their long lifetime. InteGrade LED is an ideal solution for high-quality lighting without flicker or color differences. The fixture consists of a profile with LED engines and inline locks. Mounting accessories, cables and LED power driver are available separately.

### Product data

| General Information                |                    | Operating and Electrical  |                           |
|------------------------------------|--------------------|---------------------------|---------------------------|
| Lighting Technology                | LED                | Power Consumption         | 8 W                       |
| Light Technical                    |                    | Temperature               |                           |
