

Form Ten Round Area MA

Form Ten Round MA Style, 22" Housing, Type IV-FM, 400W PS

Form Ten Round MA Style, 22" Housing, Type IV-FM, 400W PS

The Form Ten semi-sphere is a dome shaped, cylindrical cutoff luminaire. Its softer silhouette lends itself to integration with curving architectural structures, or may be tastefully used to provide an interesting counterpoint to sharply defined structural lines. Semi-Sphere luminaires accommodate all six Philips Gardco optical systems and accept HID lamps from 70 to 400 watts. Like all Philips Gardco luminaires, housings are sealed against penetration by insects and the elements with high compliance memory retentive, extruded silicone gaskets. Housings are spun aluminum with a circumferential reveal.

Product data

General Information	
Lamp Source Code	PS
Lamp Watts	400
Number of Lamps	1
Photometric Distribution Type	Type IV
Mounting	Pole Arm Wall
Operating and Electrical	
Voltages	120/208/240/277/347/480/UNIV V
Mechanical and Housing	
Shape	Round
