

Gullwing Area Large G18

Gullwing, 18" Housing, Back Light Control Horizontal Lamp, 210W MCE

Gullwing, 18" Housing, Back Light Control Horizontal Lamp, 210W MCE

An inspiration born of classic forms and forty years practical experience, Gullwing is equal parts architecture, engineering and performance. This is a luminaire where the lines between form, function and performance are indistinguishable. By virtue of its minimal contoured form, integrated die cast construction and powerful optical systems, it has changed the shape of high performance lighting. Aesthetically, the Philips Gardco Gullwing draws its strength from a simplicity of form that makes it a natural complement to any architectural vocabulary. The subtle elimination of the mounting arm allows Gullwing an uninterrupted transition from luminaire to pole. The striking effect is that the luminaire and arm become one. But this design serves practical purposes as well - minimizing wind load and strengthening the assembly. Gullwing is a model of efficiency - an elegant response to the inherent obstacles of heat, wind, weather and budgets. The profile is the sleekest of any performance luminaire available - just 4 3/4" and 6 1/2" inches at mid section. The arrangement of components, hardware, hinging mechanisms and material transitions all speak to the integrity of the design and construction program. Every aspect of this luminaire exhibits a thoughtful, practical and highly refined approach to initial and long term performance.

Product data

General Information		Photometric Distribution Type Type IV	
Lamp Source Code	MCE	Mounting	Pole Arm
Lamp Watts	210		
Number of Lamps	1		

Gullwing Area Large G18

Operating and Electrical

Voltages	120/208/240/277/347/480/UNIV V
-----------------	--------------------------------

Mechanical and Housing

Shape	Rectangular
