

New Westminster Post Top Large (NW)

New Westminster, 42 LED, Type III

New Westminster, 42 LED, Type III - 60 lm/W

The classical and contemporary designs in the New Westminster luminaire can be integrated into many different settings. The New Westminster charms with its pure and symmetrical shapes, reminiscent of a ring topped with a pearl. This luminaire receives only praise for its curves, which enhance any environment and add ambience, as well as for its sturdy design, advanced photometric performance and ease of maintenance. The New Westminster is now available with EcoSwap our new LED light engine that will provide better longevity and energy savings. With its eternal styling, the New Westminster luminaire is ageless. http://www.lumec.com/Lumec3Dv2/home/index_en.php target="_blank">Lumec3D: Online 3D Configurator
