

SiteWise area lighting management system

Bring peace of mind, ease of use and energy efficiency to your site

Bring peace of mind, ease of use and energy efficiency to your site

Provide a sense of security for visitors while saving energy, adhering to local code requirements, and meeting your business objectives. Introducing Philips SiteWise, the complete area lighting management system featuring patented central dimming technology. SiteWise utilizes existing wiring, making installation and commissioning simple. An intuitive user interface makes it easy for users to set dimming schedules around the needs of your site.
